

9000 PERCUSSION HARDWARE

Utilizing the advanced design elements of the industry standard 9000 Series line of drum hardware, 9000 Series Percussion takes hand percussion hardware to the next level. With professional features such as toothless tilters with TechLock and a first-ever basket bongo holder and the unique wingnut-free Push-Lock system, 9000 Percussion hardware is everything you'd expect from DW.

Includes wingnut-free Push-Lock mounting system and ultra heavy-duty Mega tripod base.

Aluminum construction for sturdy, yet ultra lightweight performance.

Unique offset basket assembly securely cradles bongos and toothless tilter with TechLock offers optimal positioning.

Same design as 9400 with scaled-down base for seated players.

Wingnut-free mounting system grips drums, while cowbell holder with quick-release ratchet is a breeze to setup.
